## Build critical thinking skills that students need to test their best.

Kaplan Test-Taking Strategies for the PSAT builds the critical-thinking skills that your students need to succeed on the PSAT by using Kaplan test-readiness methods refined over 70+ years of experience.

- ▶ Research-based test-taking strategies enable your students to better demonstrate their content knowledge in the context of the PSAT.
- ▶ Step-by-step methods give your students systematic approaches to tackle common question formats.
- ▶ Robust teacher notes include insight into common testing errors to help teachers support student learning.
- ▶ Formative assessment measures class performance and helps teachers determine whether to reteach a skill or to move on.

or \$46.00 each

Inside Kaplan Test-Taking Strategies  
Critical Reading and Writing

According to the College Board, students in the Class of 2010 who took the PSAT before taking the SAT had a higher combined score of 146 points (on average), vs. those students who did not take the PSAT.<sup>1</sup>
