

TABLE OF CONTENTS

Book 1 – Fraction Concepts

On-Ramp Assessment 1-1

Lesson A: Parts of a Whole 1-7
 What do fractions represent?

Lesson B: Fractions Equal to 1 and 0 1-17
 How can you describe the numbers 1 and 0 as fractions?

Lesson C: Representing Fractions 1-27
 What do the numerator and denominator of a fraction tell you?

Lesson D: Parts of a Set 1-37
 How do fractions describe parts of a set?

Lesson E: Fractions and Division 1-47
 How are fractions related to division?

Lesson F: Equivalent Fractions 1-57
 How can you tell whether two fractions describe the same value?

Lesson G: Comparing Fractions 1-67
 How do the numerator and denominator affect the value of a fraction?

Lesson H: Adding Fractions 1-77
 How do you combine fractions?

Lesson I: Improper Fractions and Mixed Numbers 1-87
 How are improper fractions and mixed numbers related?

Lesson J: Fractions on a Number Line 1-97
 How do you find a fraction on the number line?

Off-Ramp Assessment 1-107

Book 2 – Fraction Operations

On-Ramp Assessment 2-1

Lesson A: Adding and Subtracting Fractions with a Common Denominator 2-9
 How is combining fractions like combining whole numbers, and how is it different?

Lesson B: Adding and Subtracting Fractions with Unlike Denominators 2-19
 How do you add and subtract fractions when they do not have the same denominator?

Lesson C: Adding Improper Fractions and Mixed Numbers 2-29
 How do you regroup when you add improper fractions and mixed numbers?

Lesson D: Subtracting Improper Fractions and Mixed Numbers 2-39
 How do you regroup when you subtract improper fractions and mixed numbers?

Lesson E: Applications of Addition and Subtraction 2-49
 When do you add and subtract fractions in the real world?

Lesson F: Understanding Fraction Multiplication 2-59
 What strategies can you use to multiply a whole number by a fraction?

Lesson G: Multiplying Fractions 2-69
 How do you multiply a fraction by a fraction?

Lesson H: Fraction Division 2-79
 What does dividing by a fraction represent?

Lesson I: Applications of Multiplication and Division 2-89
 When do you multiply and divide fractions in the real world?

Lesson J: Choosing an Operation2-99
How do you decide which operation to use?

Off-Ramp Assessment2-109

Book 3 – Decimal Concepts and Operations

On-Ramp Assessment 3-1

Lesson A: Representing Money 3-9
How do you determine the value of a group of coins and bills?

Lesson B: Representing Decimals 3-19
How are decimals and fractions related to money?

Lesson C: Decimals on the Number Line 3-29
Where do decimals fall on a number line?

Lesson D: Comparing Decimals 3-39
How can you tell how big a decimal is?

Lesson E: Comparing Fractions and Decimals 3-49
How can you compare fractions and decimals?

Lesson F: Adding Decimals 3-59
How is adding decimals like adding whole numbers and how is it like adding money?

Lesson G: Subtracting Decimals 3-69
How is subtracting decimals like subtracting whole numbers and how is it like subtracting fractions?

Lesson H: Multiplying Decimals 3-79
How do you multiply decimals?

Lesson I: Dividing Decimals 3-89
How do you divide decimals?

Lesson J: Applications of Decimal Operations 3-99
How do you decide what operation to use?

Off-Ramp Assessment3-109
